

INTRODUCING myGC

Have you ever wanted to have ALL your medical information, personal clinical history, doctor's visit records, and so much more, in one easy app? With myGC you have all that, and more, at your fingertips!

Like the Grand Central train station namesake, it connects patients to doctors and vice versa. It is your personal medical app that integrates your past, present & future healthcare.

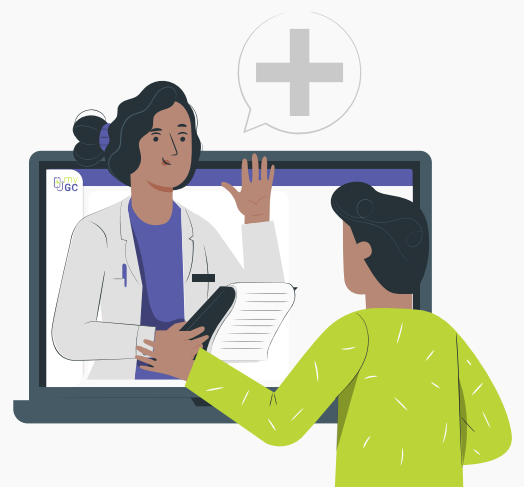

Patients – make your healthcare admin easy & painless:

- **myGC** is **free** to use.
- **Find & book** a practitioner near you, instantly.
- Full **control** over your medical data & who you share it with.
- **Share your info** with one click or QR code scan - never again fill out paper forms.
- **Telehealth** video appointments with your practitioner.
- Your medical **history** & electronic health **records** are at your fingertips.
- View & pay your medical **bills**.
- **Payments** are made easier - click, pay, done.

Practitioners – make your patient admin easy & accurate:

- Patients can book appointments in **real-time**, 24/7, online with your practice.
- Appointments are **integrated** into your GoodX diary.
- Easily **import** patient details on their approval.
- Make use of the **myGC Kiosks**.
- **Telehealth** video appointments with your patients.
- **Paperless** information sharing (clinical, pathological, referral letter) with other practitioners.
- Easily send **payment links** to patients.
- Sharing of surgical **theatre list** with hospital & other practitioners.
